

High Torque

For applications requiring extra high levels of tightening torque

All dimensions in mm

SECTION 'A-A'

- Twice the tightening torque of standard worm drive hose clips which creates more than twice the band tension for those stubborn leakage and high vibration applications.
- All stainless steel construction.
- Breaking torque of Jubilee high torque is comparable to conventional 'T' bolt clamp of equal size.
- Recommended tightening torque 17 Nm (150 lb in).
- Jubilee High Torque clips for applications that require extra high levels of tightening torque.
- They can be used on hose applications such as spiral wound wire reinforced suction hose.
- High Torque clips are appropriate in those heavy duty situations where the general British Standard product is not suitable.

Ask our Sales Department for further information.

MATERIAL SPECIFICATION

Stainless Steel

Band:	BS/AISI 304 A2
Housing:	BS/AISI 304 A2
Screw:	BS/AISI 410
